PROJECT

H₂GLASS
DECARBONISING OUR FUTURE

WHAT WE DO IN H2GLASS

- // Technology stack enabling 100% H₂ combustion in the glass sector
- // IT architecture & automation for efficient industrial processes
- // Validation in five real-world glass production facilities and one aluminium producer
- // Safe, economic, and sustainable solutions, also for other energy-intensive industries

H2GLASS

WWW.H2-GLASS.EU

EUROPEAN EXPERTS DRIVING THE DECARBONISATION OF THE GLASS INDUSTRY

Coordinated by SINTEF ENERGY, H2GLASS is driven by 23 strong partners from 8 European countries representing research and industry institutions, major manufacturers from the glass industry as well as the aluminium industry.
